THE 28th INTERNATIONAL ACM CONFERENCE ON 3D WEB TECHNOLOGY

SAN SEBASTIAN, SPAIN

9-11 October 2023

CALL FOR SPONSORSHIP

The 28th International ACM Conference on 3D Web Technology, organized in cooperation with the Web3D Consortium, will address an extensive range of research, development, and practice related to web-based interactive 3D applications. The goal of the conference is to share innovative and creative ideas that enable development of 3D applications for a wide range of 3D environments, including the web, mobile as well as virtual and augmented reality (VR & AR) setups. Works related to various application domains, including e-commerce, education, cultural heritage, entertainment and infotainment, social media, tourism, medicine, military, digital twins for industry and construction (and many others) are welcome.

This year's theme, "The Metaverse". The concept of metaverse with all its facets is not new to the Web3D community. It was one of the reasons why Web3D was created. Starting from the initial idea of immersive and interactive websites using 3D, Web3D has evolved into a rich set of technologies for creating, transmitting, accessing, interacting, sharing and visualizing 3D universes.

Sponsored by ACM SIGGRAPH in cooperation with Web3D Consortium and Vicomtech
